KNOW YOUR ISO STANDARD'S LEGAL REQUIREMENTS AND OTHER REQUIREMENTS

ISO 45001:2018 is an international standard for occupational health and safety management systems to help organisations improve their employee health and safety, reduce workplace risks and create safe working conditions, while complying with relevant legal and other requirements.

ISO 14001:2015 is an international standard for environmental management systems that requires organisations to consider and comply with their compliance obligations when establishing and implementing such management systems.

ISO 9001:2015 is an international standard for quality management systems that requires organisations to consistently provide products and services that meet customer and relevant regulatory and statutory requirements, while also meeting such requirements for processes.

ISO/IEC 27001:2013 is an international standard for information security management systems that requires organisations to comply with relevant legislative statutory, regulatory and contractual requirements.

THIS WORKSHOP WILL COVER:

- What are relevant legal requirements and other requirements or compliance obligations for each standard?
- Why is compliance with relevant legal and other requirements important?
- How are relevant legal & other requirements or compliance obligations identified for each standard?
- How are legal and other requirements or compliance obligations considered during the establishment of management systems?
- How do management systems assist organisations in fulfilling their legal and other requirements or compliance obligations?
- What is required of the process for tracking and updating legal & other requirements or compliance obligations?

Presenter: Ms Ina Bezuidenhout
