## 1. INTRODUCTION

### 1.1. Purpose

This document describes the Quality Management System (QMS) Scheme criteria for SAATCA auditor certification, based on ISO 9001:2015.

These criteria are intended to be used by:

1. Potential applicants to determine their suitability / readiness for making application for initial certification and for maintenance thereof and for ensuring they submit all necessary evidence and
2. The SAATCA Evaluation Committee to evaluate such applications

**General note:** The term “scheme” is equivalent to “discipline” as referenced in ISO 19011:2018:2018.

### 1.2. Definitions and Abbreviations

For the purpose of these criteria, the terms and definitions in ISO 9000, ISO 19011:2018, ISO/IEC 17000, ISO/IEC 17021-1:2015-1:2015 and ISO/IEC 17024:2012 apply.

#### List of acronyms

**QMS:** Quality Management System

## 1.4. Equivalent Standards

Whilst the SAATCA registration schemes are based on the primary international or national standard, where these exist, it recognises that there are other standards that may be equivalent for the purposes of SAATCA management system auditor registration.

Where there are such equivalent standards, the Quality Management System Scheme Committee develop and publish the list of equivalent standards which can be used as the basis of competence for each scheme. These equivalence lists are approved by the Technical Management Board as part of these criteria as follows:

### List of Equivalent Standards for ISO/IEC 17021-1:2015

There are currently no equivalent standards for ISO/IEC 17021-1:2015 as applicable to QMS auditor registration.

### List of Equivalent Standards for ISO 9001:2015

**For initial certification**, the following are considered equivalent to ISO 9001:2015:

- ISO TS 16949, Quality management systems — Particular requirements for the application of ISO 9001:2015 for automotive production and relevant service part organizations
- ISO TS 29001, Petroleum, petrochemical and natural gas industries - Sector-specific quality management systems - Requirements for product and service supply organizations
- All requirements' standards listed in the ISO document ISO/TC 176 N881R3, List of ISO 9001:2015 Sector Applications (available from SAATCA or ISO website)
- ISO/IEC 17025 General requirements for the competence of testing and calibration laboratories
- ISO 15189: Medical laboratories -- Particular requirements for quality and competence

**For maintenance of certification**, the above standards as well as:

- ISO 10006: Quality management systems -- Guidelines for quality management in projects
- SANS ARP 063 / IWA 4: Quality management systems - Guidelines for the application of ISO 9001:2015 in local government.
- SANS ARP 082: /IWA 2: Quality Management Systems: Guidelines for the application of ISO 9001:2015 in education
- ISO 10007: Quality management systems -- Guidelines for configuration management (includes specific requirements for configuration auditing).

**If a standard has not been approved as equivalent, the onus is on the applicant to provide sufficient evidence to justify its acceptance by the Scheme Committee and approval by the Technical Management Board.**

## 1.5. "Start Up" Concession for New Schemes

When this was a new SAATCA scheme being launched, where there were not yet any qualifying Lead Auditors for witnessing or evaluation purposes, the Scheme Committees had the option to grant applicable "Start Up" based registrations.

**Note:** The Start Up clause is the expression used when a scheme has to start / be initiated, to enable the scheme to get off the ground. It is based on accepting the existing competence and experience of practitioners already in the relevant field, who are not yet able to fulfil those requirements that rely on the existence of Lead Auditors in the new scheme, because there are no such Lead Auditors at the time.

Concessionary approval may be granted by SAATCA with the proviso that a suitable portfolio of evidence is maintained to demonstrate conformance with these Scheme Specific “Start Up” criteria.

“Start Up” auditors shall comply with all the criteria except where deviations have been noted.

## **1.6. SAATCA QMS Scheme Sectors**

- Not applicable for this scheme

## **1.7. SAATCA Auditor Grades**

### **1.7.1. Provisional Auditor (Also referred to as “in-training” in certain industry sectors)**

This grade is the entry or training grade. It recognizes an applicant to have the appropriate personal behaviours, educational, professional and technical competence but does not yet meet the criteria for auditing experience and demonstration of audit competence of the other grades. This grade is qualifications based, without competence evaluation.

This is not SANAS accredited grade of management system auditor.

Provisional Auditors will be given a yearly certificate that is renewable every year, stating the applicant’s applicable scheme of registration and registration number, a yearly certificate will be issued formally but there will be no registration card issued.

This grade is a transition grade with the intention that, over time, Provisional Auditors progress to auditors once they meet the requirements.

No Provisional Auditor registered in terms of this grade may suggest or imply certification status as a management system auditor.

### **1.7.2. Auditor Grade**

This grade recognizes the applicant as a competent Auditor, contributing as an effective member of an audit team. This grade applies typically to auditors who take part in audits as members of a team rather than audit team leaders.

Auditors shall be issued with Certificates and Auditor registration cards.

### **1.7.3. Lead Auditor Grade**

The Lead Auditor grade is reserved for auditors who conform to the requirements of Auditor grade and who are competent and experienced at managing audits and leading audit teams. This grade applies typically to auditors who lead audits of more than one auditor.

Lead Auditors shall be issued with Certificates and Lead Auditor registration cards.

### **1.7.4. Internal Auditor Grade**

This grade applies to applicants that conduct audits within and for or on behalf of organisations by whom they are employed, and may include supplier audits, provided they cover the full scope of the relevant management system.

It is not intended to imply that an Internal Auditor is less qualified than an Auditor, only that the application of the auditing practice is limited to one organisation. The same level of qualification and work experience is required as that of the Auditor grade.

Internal Auditor certification shall be granted in respect of the specific organisation for which internal audits are conducted.

Internal Auditors shall be issued with Certificates and Internal Auditor registration cards on which reference will be made to the organization where the internal audits are carried out and for which the Internal Auditor has been certified.

If a SAATCA certified Internal Auditor leaves the employment of the organisation for which internal auditor certification is held, his or her certification as a SAATCA certified internal auditor for that organisation is no longer valid. Should the auditor resume internal auditing at a different organisation, they would qualify to transfer their internal auditor certification, by making application relative to the new organisation. Alternatively, they could apply for full Auditor grade as they potentially satisfy the requirement for auditing multiple management systems. Internal auditor is not recognised nor currently a SANAS accredited grade of management system auditors.

## **1.8. Advancement to Another Grade**

Advancement to another certification grade can be attained at any time provided suitable competence and experience for that grade is gained.

Certificated auditors of any grade, who can demonstrate competence and are successfully evaluated against the applicable criteria required for another grade, shall qualify for advancement to such grade.

When applying for advancement from one grade to other applicants are required to complete the application form and submit the applicable evidence relevant to the new grade.

## **1.9. Suspension and Withdrawal of Certification - ARP 2.7**

All suspensions and withdrawals of certification shall be managed in accordance with ARP 2.7

## **1.10. Complaints, Appeals and Disputes Process - QSP 1.4**

All complaints, appeals and disputes shall be managed in accordance with QSP 1.4

## **1.11. Criteria for Auditor Transition in the Event of Substantial Changes to Criteria**

In the event of any substantial changes to any of these auditor criteria eg a management system standard changing, etc the Scheme Committee shall develop and publish a process for transition and the transition period (if any). The transition requirements shall be clearly specified and approved by the Technical Management Board. These shall be published (for example as an annex to these criteria, a communique, etc and communicated to registered auditors and applicants.

### **Transition timelines for these criteria:**

For transition details, refer to the Maintenance Section of the Criteria Table

## **1.12. Transfer of Certification - QSP 1.9**

All transfers of auditor certification from other auditor certification bodies shall be processed in accordance with QSP 1.9

## **1.13. Use of the SAATCA Logo - SF 48**

The use of the SAATCA logo shall be in accordance with: Regulations Governing the SAATCA Logo (SF48)

## **1.14. Notifiable Changes - SF 56**

By signing the SAATCA Auditor's Code of Conduct, all auditors commit to notify SAATCA of any changes that can affect the auditor's state of conformance with SAATCA and compliance with regulatory or legal requirements. Refer to SF 56 regarding notifying SAATCA of any changes.

## **1.15. Publication of Details of SAATCA Registered Auditors**

SAATCA shall publish details of registered auditors, (including grade and status, where applicable) on the website: [www.saatca.co.za](http://www.saatca.co.za).
