SPEAKER BIO'S

LUCY LOGGENBERG

Founder and Managing Director, Alpha Educational Services

My belief is grounded in the philosophy that legal compliance is an essential duty, not an option. Upholding ethical standards and mitigating risk is what sets responsible organisations apart. Legal compliance is no longer optional for organisations. It has become the duty of top management to ensure that the entity's labour, health, safety and environmental risks are identified and mitigated. At Alpha Educational Services, we are there to ensure that all your regulatory needs are met.

I have nearly three decades of experience in the South African, Botswanan, Namibian and Mozambican private and public sectors, with solid expertise in legal compliance across sectors such as Mining, Engineering, Retail, Manufacturing and Construction. I am a qualified third party auditor (ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018) and a legal compliance auditor for the Occupational Health and Safety Act and the Mine Health and Safety Act, and I hold the NEBOSH International Diploma for Occupational Health and Safety Management Professionals.

I founded Alpha Educational Services in 2016 and provide a full set of compliance services, including auditing, consultation and training, focused primarily on ensuring that organisations identify and control their main reputational, regulatory and legal risks. Our team of business consultants, trainers and auditors stays abreast of industry best practices and benchmarks to ensure effective compliance solutions for your organisation. My current work includes developing accredited learner material, facilitator guides and e learning content for ISO 9001, ISO 14001, ISO 19011, ISO 45001 and ISO 55001, aligned to the latest revisions of these standards.

I function well as an individual and in team environments, as I build solid relationships at all company and stakeholder levels. I am comfortable with change and resilient under pressure, having successfully managed complex, multidisciplinary projects in multicultural environments. I have integrity, and I am dependable, energetic and honest, with strong leadership skills.

Sivuyile Aubrey Faltein (Sivu)

*Senior Quality & Operational Excellence Executive
PhD Candidate (Ops Management)*

Sivu is a strategic Quality Manager and doctoral candidate with more than 25 years of extensive experience designing, implementing, and auditing high-stakes management systems across the nuclear, mining, power, medical devices, and construction sectors. A recognized expert in international compliance matrices, he combines deep technical expertise in standards such as ISO 9001, ISO 14001, ISO 45001, and ASME NQA-1 with a practical focus on driving organizational performance and operational excellence.

An accomplished author and researcher in his field, Sivu wrote the seminal book *Interdisciplinary Perspective of Quality Management* [ISBN 979-88-9170-160-1]. His contribution to the academic and professional discourse also includes three peer-reviewed papers focusing on the intersections of Quality Management, Change Management, and the Fourth Industrial Revolution (4IR).

Throughout his distinguished career, Sivu has established a proven track record of leading complex ISO certification projects, reducing systemic operational risk, improving supplier quality, and driving data-led continuous improvement strategies. His work bridges the gap between rigorous, text-grounded compliance requirements and dynamic business performance.

Clark Basilwa

With more of than 20 years' experience in an ICT environment of which 14 years were spent at network level, Clark acquired vast ICT knowledge and skills, which assisted him in facilitating and implementing projects successfully in the network infrastructure environment. He has the ability to manage multiple activities coupled with good technical problems solving skills, which enabled him to coordinate functions for network services.

During his employment at WWISE, he has been involved in many ISO Projects as an Implementor and Lead Auditor and every challenge makes him stronger, better, and always wanting to bring the best of himself for the satisfaction of the clients as well as the organisation as a whole.

Brian Musarurwa

Brian Musarurwa is renowned consultancy professional with expertise in the design, implementation, training and auditing of ISO 9001 Quality Management, ISO 14001 Environmental Management, and ISO 45001 Occupational Health & Safety Management System (QHSE) organizational frameworks. Brian helps in standardizing processes, ensuring regulatory compliance, and driving continual improvement across many industry sectors. A SAATCA registered Lead Auditor with 25+ years of experience in referenced standardization frameworks. Brian has directed strategic implementation at the highest level for over a decade, and has had successful ISO Certification footprints in countries like Namibia, South Africa, Malawi, Zambia, Ethiopia, Ghana, and Zimbabwe.
